

Greetings new S1,

I am sure some of you are nervous about coming to Kirkintilloch High School. Everyone is, its human nature to be nervous about starting and doing new things you've never done before. So I'm not going to say 'don't be nervous' and 'It will be fine' as you will be nervous and scared but you will make it through and settle quickly. You will always have someone to talk to if you feel scared. Remember whenever you start a new video game and you are all excited but nervous, well that's the way you should feel about starting High School. For me, Science is always a fun subject as you get to do experiments. I also enjoy Design and Manufacture as you get to build cool stuff like coat hangers and pencil holder. I wonder what your favourite subjects will be? It will be exciting to find out. Good luck.

Aidan, S2
